

# Microbe Soil Treat

**ABSORBENT**

A dual-purpose oil/fuel absorbent and bio degrader that readily absorbs all hydrocarbons. The natural non-pathogenic bacteria, enzymes [micro organisms] present in Microbe Soil Treat naturally biodegrade the contaminants to harmless bi-products of H<sub>2</sub>O and carbon dioxide on site, in a short time frame.

## **BENEFITS OF MST.**

- **Simple and safe to use**
- **Encapsulated oils and fuels and will not leak or contaminate ground water.**
- **Microbe Soil Treat is non-toxic, non-abrasive, non-carcinogenic and non-volatile.**
- **Microbe Soil Treat acts as a fire retardant.**
- **Produced from a natural waste product from the cotton industry.**
